

JAN 2022

Hi Everyone!

Happy New Year! A LOT happened in 2021 and I want to share some of the highlights with you all!

From January to May, I was in New Haven, finishing my last semester at Yale! There I had the wonderful opportunity to work on several dance projects, one in partnership with the Yale Dance Lab, another being my own motion-capture piece, [149YK](#).

I am very pleased to say I graduated with Honors in Theater in Performance Studies! I am forever grateful to everyone who helped me along this journey!

Throughout my time at Yale, I am most proud of my thesis performance, [Flores caídos](#). Currently I am in the process of rewriting the play for the next audience once in-person theatre returns... Stay tuned!

After graduating, I moved back home to Atlanta, where I had a short residency at the Horizon Theatre Company as part of their [New South Young Playwrights Festival!](#) You can watch my short play, *Sycamore Roots*, on their website .

Then, in August, I had the fun opportunity to get all dressed up for [Andrew Boynton's photo series: No Land Without a Lord](#). Fingers crossed those photos will be on display in a Chicago gallery soon!

Finally, to wrap up my year, I am now working in downtown Atlanta as a Standardized Patient for Emory University! Those of you who know me from before will remember that once upon a time I wanted to go into medicine, and now I am able to use my acting skills to help future doctors!

My next goal while here in ATL is to sign with an agent for more TV/Film acting work! If you have any leads or recommendations, please let me know!

All my heart,
Chayton
